

## 20 Household relocation

This module asks about possible relocation of household within the next three months. For the purpose of this module, "household relocation" refers to an incidence where none of current household members will live in the current household location.

- 1) Do you think this household will likely move away from this location within the next three months?

1 -Yes

3 -No (Skip to 5)

1

- 2) What is the main reason that the household will move away?

- 3) Ask respondent about the likely new location of household. In case the members split into more than one household it suffices to ask about the location of household to which the current household head is expected to move. Please record details of the new address, including house number, soi, road, community, tambon, amphoe, and province. If the household will move out of Thailand, record only the name of the new home country.

- 4) Ask respondent whom to contact if this household does, in fact, relocate within the next 3 months. Record name, address, and telephone number of this contact person for reference in the next round of resurvey

- 5) Interviewer's note
